

Pumps 2

Flojet Electric Pumps

2130 Series Electric Water Booster Pumps

Water booster pump designed for non carbonated and carbonated post mix applications. Complete with integral pressure switch.

Ideal for vending machines and mobile carts.

Will run dry without damage to internal components.

2100 Series

Flojet industrial 2100 Series pumps are designed for general commercial and industrial applications. Constructed from a wide range of materials for handling a broad range of chemicals. Self priming and can be run dry without harm.

2125 Series

Capable of pumping post mix syrups, juices and soda, plus wine. Built in vacuum switch shuts off pump when bag is empty and turns on 'sold out light'. A safety timer turns pump off automatically after 3 minutes in case of airlocks.

Self priming with pressure switch adjustable from 30 to 50 psi.

Bottle Water Pump

A compact system for dispensing bottled water. Float switch for auto shut off. Built in non return valve to prevent back flow.

Positive displacement flojet pump.

Voltage 230 50/60 Hzs

Max flow 3.8 L/min

Max Pressure 2.8 Bar

Part No. FLO 001

Part No.	Description
FLO001	240V Flojet Bottled Water Pump
ABB1074/C	Flojet Mains Water Pump Kit 1/4"JG or 3/8"JG In/Out

Booster Pump

A self contained flojet pump, mounted in a sturdy steel box complete with external John Guest connections and 13 Amp lead. Can be fitted with pressure switch and flow switch if required.

Part No. ABB 800

Part No.	Description
ABB800/A	Standard Booster Unit 3/8"JG Pushfit In/Out
ABB1314	3/4" BSPM Fitting Kit for ABB800/A Boxed Booster Unit

Matra Pumps

Matra are one of Europe's leading manufacturers of self priming jet type pumps, peripheral self priming Centrifugal and multi stage Centrifugal pumps. Abbeychart can supply the full range and we stock several of the most popular range.

MAT CP 45/S

This is a 40 gal. Per min. peripheral pump with 0.5 hp motor.
